**Speaker's Biography (provided by the speaker)**

**Mr. Andrew Wedgner**

**Application Marketing Manager BU Pipe, Borouge Pte Ltd**

Andrew Wedgner graduating from Leeds University with a degree in Civil Engineering in 1988. Andrew spent 23 years working in the water utilities industry for engineering consultants such as Mott MacDonald and Halcrow, together with utility organisations such as Anglian Water in the UK and the Abu Dhabi Distribution Company (ADDC) in the UAE.

He has worked in a wide variety of positions, ranging from trainee leakage detection engineer to projects division manager where he managed an annual capital programme of over US\$ 1 billion. After opting for a career change he joined Borouge as Pipe Application Marketing Manager in 2010.

**Synopsis of Paper**

**Borouge** is a leading provider of innovative value creating plastics solutions. Combining the most advanced technologies with world-class production facilities, Borouge is a unique company that brings together the very best of Europe and the Middle East.

With a heritage of reliable customer partnership and value creation through innovation, Borouge provides plastic solutions that make a real difference to everyday life.

Borouge provides a range of differentiated products for high-value infrastructure applications, including water, gas and industrial pipe systems, power and communication cables, advanced packaging and automotive components. The advantages of Borstar are well recognized in the industry and are central to Borouge's success – the technology facilitates the manufacture of high-performance, high-value plastic solutions that are vital to modern living. Borouge's presence in key strategic locations throughout the Middle East, Asia-Pacific and Africa facilitates speed to market, on-time delivery and customer support. Borouge is also the exclusive regional provider of the entire Borealis product line.

At the forefront of one of the world's most exciting industries, Borouge empowers its customers to create products that are vital to addressing global challenges and has a vision of 'Shaping the Future with Plastics'.
