9.30am	Presentation by OPTILED Lighting International Ltd
11.00am	Showcase of Products
11.30am	Questions & Answers
12.00pm	End & Lunch

## SYNOPSIS

With a surge in demand for energy efficiency, majority of the companies are looking at opportunities to covert conventional lightings to LED lightings products. In this second interactive seminar, OPTILED will share on the success story of its 2\*9 Twin Rotary Head LED Downlight, which was specifically designed for Singapore Changi Airport based on their stringent requirements.

### Success of Rotary Head LED

- How to select the appropriate and quality LED lighting for your projects?
- What are the key points to consider in using LED lighting?
- What are potential limitations with using LED lighting in projects?
- Applications Reference
- Product demo

## SPEAKER PROFILE

### Ada Lee - Business Development Manager, Optiled Lighting S.E.A Pte Ltd

Ada has 9 years in the lighting industry and she plays an important role in developing sales strategies and new business initiatives while helping customers to capitalise on the substantial benefits of LED lighting technologies.

### Joseph Ng - Senior Project Engineer, Optiled Lighting S.E.A Pte Ltd

Joseph has 3 years in semiconductor manufacturing and 2 years in LED product engineering. With the many years of experience and exposure, Joseph has an in-depth knowledge and the necessary expertise in LED lightings and the specifications needed.

## COMPANY PROFILE

Founded in 2000 and headquartered in Hong Kong, OPTILED Lighting International Limited is the leading expert and provider of LED functional lighting solutions. With an extensive distribution network across the North America, Europe, China, Japan, Australia, Hong Kong and South East Asia regions, OPTILED possesses the necessary skills and expertise in developing a range of environmental friendly lighting products. OPTILED also aims to shape the future of light by leading the world into a new era of lighting based on LED technology.
