

KNOW YOU CC...

The Honorary Secretary 2020-2021

Good day & hello to everyone :-)

I am Daniel Koh, born in the Seventies and a very big fan of outdoor activities. I had been actively involved in PAM Sabah Chapter Interprofessional Games for football, futsal & volleyball and get to know a lot of wonderful fun people !!

I am adventurous and had been trying to be outside the box because my philosophy is there is an inner side of us whom wanted to try but fear to ! Life should have no regrets so just do it !!

I enjoy travelling and sharing experience with fellow workmates and never stop to explore & learn new things. I think journey is much more important than the destination itself ! A journey is something that we always have story to tell & share :-)

Architecture is definitely my passion (put aside the financial stress :-()) One project takes many years to materialize and the self-satisfaction is indeed very fulfilling when the building completes ! Along the way I was lucky to work with Starchitect and chances given must be cherished.

I had been serving PAM Sabah Chapter since year 2011. Time really flies and I had not regret a single moment to be in this chapter family where I learnt life lesson from mentors in the committee whom are always defending the rights of Sabah Architects !!! I strongly felt we must have continuity of this fighting spirit so our rights are constantly safeguarded.

I am lucky be appointed to chair PAM Sabah Chapter Annual Dinner 2018 and the theme is WOW ! MIngling & organising with happy charming friends was memorable as part of journey of life.

In short term future, I really hope there will be more young architects to join us in this lovely family & please trust me you will not regret :-)

Life is short, and it is up to us to make it sweet

Cheers mate !!!
