

The Basel Chapel that was Built in 1904...

On 31st July 2010, Ar. Ho Jia Lit and Ar. Victor Wong ventured into the “jungle” of Bukit Istana and discovered the Basel School which was built in 1904 but was later converted into a Chapel. The existence is almost unknown to the public as it is situated amidst the jungle and up on the hill. The Chapter has decided to document this pre-war building by way of measured drawings and publication, to bring about the awareness of the public. During the visit, both Ar. Ho Jia Lit and Ar. Victor Wong were kindly entertained by Rev. Dr. Thu and Rev. Chung of the Sabah Theological Seminary.
